

Storage Solutions

Seamless Storage. Smarter Business.

Storage solutions

Axjo supports the small storage solutions industry with innovative, sustainable designs. Committed to sustainability, we use 100% recycled materials for all colours to meet the increasing demand for environmentally responsible practices in the sector.

Storage Trays

Storage Trays

The market's most complete and modern range of storage trays for efficient storage and handling on shelves in racks, storage, storage vending machines, etc. The range is available in two different series – the 30 series which is 80 mm high and the 31-

series which is 100 mm high. Each series contain two different widths and four different lengths and comes in two different colors. For all trays, we have straight dividers available.

Model	Size	Colour (LxWxH) mm	Dividers	Qty/ Pallet	Qty/ Cartoon
3001	300 x 94 x 80	Blue, Red, Yellow, Grey	Straight (3)*	720	36
3003	300 x 188 x 80	Blue, Red, Yellow, Grey	Straight (3)*	360	18
3011	400 x 94 x 80	Blue, Red, Yellow, Grey	Straight (5)*	600	20
3013	400 x 188 x 80	Blue, Red, Yellow, Grey	Straight (5)*	240	30

* Figures in brackets (1-9) = Max number of dividers in bin or tray.

Storage Bins

Storage Bins

A series of practical, stackable storage bins that follow current industry standards. The bins are Swedish-made and co-stack with other models

on the market. A part of this range is available with accessories – lengthwise dividers.

Model	Size (LxWxH) mm	Colour	Dividers	Qty/ Pallet	Qty/ Cartoon
3071	500 x 310 x 200	Blue, Red, Yellow, Grey	Length	48	8
3072	500 x 310 x 250	Blue, Red, Yellow, Grey	Length	48	8
3073	350 x 206 x 150	Blue, Red, Yellow, Grey	Length	160	16

Model	Size (LxWxH) mm	Colour	Dividers	Qty/ Pallet	Qty/ Cartoon
3074	250 x 148 x 130	Blue, Red, Yellow, Grey	-	432	36
3075	170 x 105 x 75	Blue, Red, Yellow, Grey	-	640	20
2076	96 x 105 x 45	Blue, Red, Yellow, Grey	-	1920	20

Modular Bins

Modular Bins

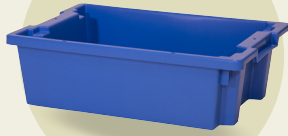

A series of stackable modular bins that follow current industry standards and are adapted for 1000 mm wide shelves.

The bins are Swedish-made and co-stack with other models on the market. Available for four

different shelf depths - 300, 400, 500 and 600 mm. Available with accessories such as lengthwise and straight dividers.

Model	Size (LxWxH) mm	Colour	Dividers	Qty/ Pallet	Qty/ Cartoon
3070	600 x 230 x 150	Blue, Red, Yellow, Grey	Length/Straight	100	10
3069	500 x 230 x 150	Blue, Red, Yellow, Grey	Length/Straight	100	10

Model	Size (LxWxH) mm	Colour	Dividers	Qty/ Pallet	Qty/ Cartoon
3068	400 x 230 x 150	Blue, Red, Yellow, Grey	Length/Straight	112	14
3067	300 x 230 x 150	Blue, Red, Yellow, Grey	Length/Straight	160	16

Stacknest

StackNest

StackNest is the ideal solution for efficient transport and storage. Its pallet-friendly design ensures compatibility with standard logistics systems, while the smart nestable construction saves valuable space when unstacked (lid off, one direction).

By rotating 180°, the containers can be stacked securely for maximum stability.

Optional loose lids provide added protection when needed, making StackNest highly versatile. With its robust design, it is an excellent choice for internal warehousing and distribution operations.

Storage Trays

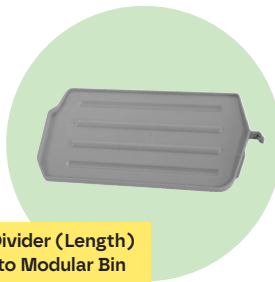

Additional Products

The dividers are ergonomically designed and have a flexible lip in the bottom that guarantees a perfect fit. Produced in PP and with a fixation

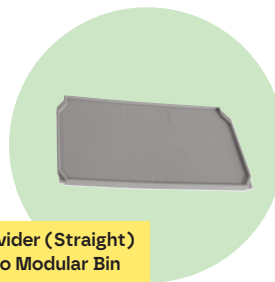

method that ensures firm fixation - so no risk of the dividers "popping" out when handling the trays.

VLM Frame System

Axjo VLM frame systems are designed to optimize tray utilization in vertical storage lifts. With versatile configurations, they offer efficient and adaptable solutions

for maximizing vertical storage capacity. To make your space even more customizable, the frame can be divided using various types of dividers, tailored to your specific needs.

VLM

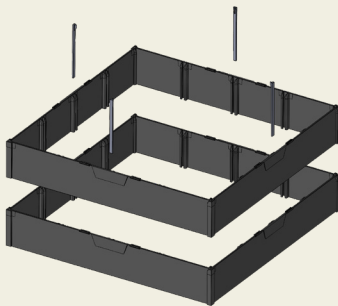

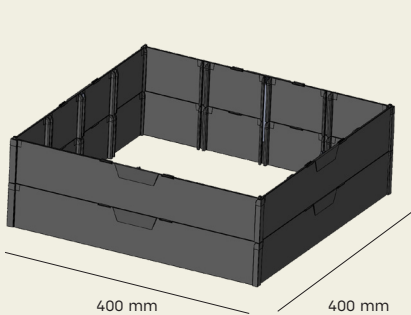

The frame consists of four parts that form a 400x400 mm frame.

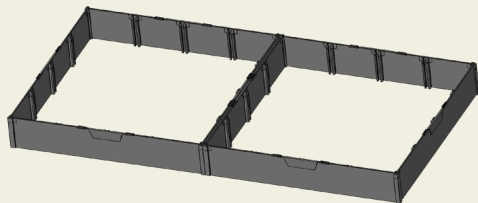

Three sizes of dividers creates spaces from 100x100 mm to 400x400 mm.

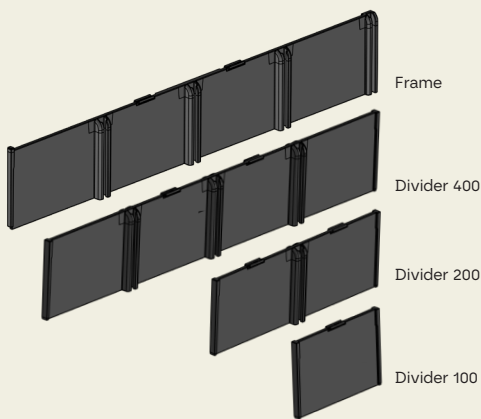

The height of the frame is 70 mm. By stacking multiple frames on each other, you can create heights of 70, 140, 210 mm, for example.

Use the locking pins to lock two sections of the frame system.

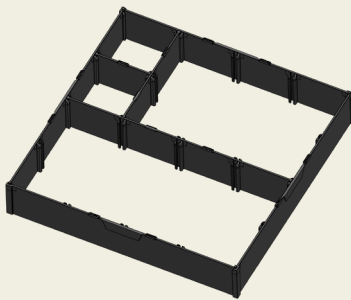

To connect several frames next to each other, use a locking cross.

Locking cross

Locking pin
